The Children's Diabetes Camp of Central Texas was founded in 2003 as a non-profit corporation which has the purpose of funding, supporting, and administering Camp Bluebonnet. Our primary mission at Camp Bluebonnet is to provide an opportunity for children with diabetes to enjoy summer camp in an environment that accommodates their unique health needs. Diabetes education is also a part of camp for both campers and family members with the goal of improving immediate quality of life for everyone in the family who is impacted by diabetes. We also hope that diabetes education will help campers learn strategies to improve blood sugar control so as to lessen the possibility of long term complications associated with diabetes. Finally, we are a place where people, children and adults both, whose lives have been forever changed by diabetes can come together with others facing similar challenges and learn that they are not alone.
